

Software Applications

The majority of our customers prefer us to manage their Microsoft 365 licences for them. Not only do we ensure that they are legal, we also use our extensive knowledge to ensure the most cost effective licence configurations are being used. Monthly licences ensure complete flexibility and that your business gets the optimum payback from its investment.

At UK Business IT, we can help your business **'Stand out from the Cloud'**

The software market has changed and most software vendors offer 'cloud' versions of their software as well as the more traditional on-premises licences. In practise, this means that your data sits on their server in a datacentre and is accessed via the internet. You effectively 'rent' the software that your business uses on a day-to-day basis rather than buy it. Some of the advantages are:

1. No up-front costs – software can be paid for monthly on a pay-as-you-use basis.
2. Software is always up-to-date – the 'cloud' or internet version will be kept updated.
3. Licensing is easier and more controlled – you 'rent' the number of users that actually log in and use it.
4. Disaster Recovery is easier, faster and requires less infrastructure to be available on your premises.
5. Staff can work remotely on your company data much easier – they simply need an internet connection to be able to work.

The Microsoft Office 365 suite offers a multitude of collaboration and productivity tools and can also be delivered on-line. Everyone can work together easily with access to email, web conferencing, documents, and calendars.

Our professional software installations are fully managed and planned in advance to minimise any disruption.

We are agents for several software vendors including Microsoft who offer a number of alternative ways to use their

software. As a Microsoft Partner, we can rent software services and applications to our customers on a monthly or annual basis. This also allows our customers the ability to test and evaluate Microsoft products for up to 90 days.

We are also able to access significant discounts to Charity and Education customers.
